

FACT SHEET: HVAC SERVICES - NORTHERN AND WESTERN NSW

Grosvenor is a leading provider of intelligent HVAC services, design and construction solutions across Australia. Everything we do and the way we do it provides our clients (building owners, managers and occupants) with superior outcomes in terms of tenant comfort, improved HVAC reliability, compliance, cost of ownership and building return on investment.

GROVESNOR AND NATIONWIDE AIR - YOUR TEAM IN REGIONAL NSW

Nationwide Air Conditioning is a wholly owned Australian company based in Newcastle, NSW. It provides HVAC services across Northern and Western NSW. With another office in Coffs Harbour and key staff based in the New England and Central Coast regions as well as into Queensland it is conveniently located to service your HVAC needs.

Our joint venture partnership means we can provide state-wide HVAC services with a consistent quality of service.

EXPERIENCE AND KNOWLEDGE

Nationwide has more than 30 years experience in the air conditioning, ventilation and refrigeration industries.

Working as an integrated service delivery company, our professional and highly trained engineers and technicians from both companies deliver proactive preventative maintenance and intelligent customer solution design to exceed your expectations.

From the decommissioning of old HVAC plant through to new installations, refurbishment of existing systems and ongoing maintenance, we are leaders in the HVAC industry.

KEY SERVICES

- HVAC Construction and Refurbishment
- HVAC General Maintenance
- HVAC Central Plant Maintenance
- 24hr Emergency Breakdown
- Technical Advisory Services
- Business Solutions
- Energy Management Services

The types of buildings that we provide solutions for and service include:

- High rise
- Retail and hospitality
- Office parks and industrial estates
- Community services
- Small to medium enterprises

PROGRAMMED, PROACTIVE MAINTENANCE

The most intelligent way to maximise the performance of your HVAC assets is with proactive maintenance. We continue to re-win competitive contracts because we provide clients with detailed reports and analyses of their system performance.

Our budgeted, maintenance contracts deliver pro-active audits to identify defects as well as practical changes to practices and equipment to maximise reliability and minimise running costs.

Technology plays a big part in air-conditioning maintenance and we lead the way in applying technology to proactively reduce breakdowns and maximise asset life.

Having conveniently located staff means we are never far away to undertake prompt maintenance or emergency repairs for you.

CLEAN AND GREEN

With every solution designed and every maintenance contract signed, we are committed to delivering cost effective, energy efficient and green HVAC services. With our in-house NABERS consultants, Grosvenor is a leader in research, development and deployment of energy efficient HVAC solutions in regional NSW and Australia.

Our maintenance services deliver proactive energy management through real time energy monitoring and exception reporting.

SERVICE EXCELLENCE – EXPERIENCE THE DIFFERENCE

Nationwide's clients enjoy an unparalleled level of service and return on investment on their HVAC assets. Our unique whole of life building approach, based on research, development, data collection and analysis, will exceed your expectations.

All of our work meets or exceeds Australian Standards and our industry's Code of Practice.

Some of the clients serviced by Nationwide and Grosvenor in the region include:

- NSW Police
- NSW Department of Commerce
- Coles Express
- Transfield Services
- United Group Services
- Port Waratah Coal Services (PWCS)
- Kotara Home Maker Centre
